**Capability Statement**

**Company**

Electro Mechanical Solutions is a precision sheet metal fabrication and machine shop located in Odessa, Florida. EMS is a minority and women owned business that was started in 1993 as a sheet metal shop. In 2001, EMS was expanded to include a machine shop and electro mechanical assemblies. We currently serve the medical, aerospace, semi-conductor and defense industries. EMS specializes in complex CNC machining and precision sheet metal fabrication. Some of our contract services include: CNC turning & milling, laser cutting, sawing, forming, welding and quality inspection per specifications.

**Core Competencies**

- Precision CNC Machining
- Prototype and Production Runs
- 3, 4 and 5 axis CNC capabilities
- Close tolerance assemblies
- Precision Sheet Metal Fabrication
- CNC Laser for sheet metal up to 3/8" Steel, Stainless, Aluminum
- Welding (SMAW, MIG, FCAW, TIG Certified Welders)
- Assembly and integration
- EMS also provides access to outside services like painting, plating, and Laser part marking.

**Customers**

- Textron
- Entegris
- Pall
- CAE
- L3

**Benefits of working with Electro Mechanical Solutions Inc.**

- Our team has an extensive background in machining, sheet metal fabrication and inspection techniques.
- We have experience in manufacturing prototype parts while maintaining tight tolerances and fits.
- Programmable CMM's with inspection report printouts.
- Able to work with solid models
- Our customer service will exceed your expectations
